

Robert H.Hansen

Position: Senior Hull Underwriter

Robert has been with RSA/Codan since 1987 working in our Danish office in various roles.

Drawing upon his numerous years of experience gained at sea and across maritime insurance, claims handling, business processes and Underwriting, he has a good understanding of your Insurance programme requirements.

For you, this means Robert from his base in Copenhagen, will provide immediate support to you by phone, mail – or personal meeting to provide on site responsive support.

Information Required	Response:
Name	Robert Helstrup Hansen
Role	Senior Hull Underwriter
Duration of Employment with RSA/Codan	Since 1987
Duration of Employment within relevant field	07- Marine Underwriting 04-07 Pleasure craft Claims Handling 00-04 Marine project consultant 99-00 Test manager 91-98 Business analyst/project manager 87-91 Pleasure craft Underwriting
Experience within sector (including positions held), with specific attention paid to the Client	Though many different roles, and many different departments in Codan, my work has always been around Marine Insurance – Underwriting and claims, analysing and improving business processes as well as developing Marine Policy- and Claims administration systems within Hull, Cargo, Aviation and Pleasure Craft. Last 12 years as Hull Underwriter with great great benefit from my Maritime education and work – not least my military service in RDN and the 3 years in arctic waters around Greenland.
Educational Background	Mates and Masters Certificate and Officer of Reserve in the Royal Danish Navy. Numerous courses within project management, Test, IT- Programming and business process analysis . I have participated in different Cefor courses in Norway and on the Danish Insurance Academy for Marine insurance.
What you will be doing for the Client	Getting a close relationship with my customers, getting best possible insight in their business thus being able to provide precise and relevant support and to give the best tailor made insurance package available.
